FOR IMMEDIATE RELEASE

Highway 160-3 Mile Slough Bridge Work Near Rio Vista One-Way Traffic Controls

Solano County – The California Department of Transportation (Caltrans) will be doing maintenance work on the 3 Mile Slough Bridge near Rio Vista today which will require one-way traffic controls.

To ensure public and worker safety, crews will alternate lane closures in both eastbound and westbound directions. This will allow one lane on the bridge to remain open during the work. Flaggers will help direct traffic. Motorists should expect delays and allow for extra travel time.

Work began around 9:30 this morning. Crews hope to have all the lanes reopened later today. Workers will be making minor adjustments to the cable work which they began work on last week.

For boat and ship traffic, the bridge will operate normally for any vessels passing underneath it along the Sacramento River.

The 3 Mile Slough Bridge connects Sherman Island to Brannon Island State Recreational Area and is approximately three miles south of Rio Vista.

Please drive cautiously through the construction zone and leave a safe traveling distance between your vehicle and the vehicle ahead of you. Caltrans appreciates your patience as we work to improve the highways.
